Three free lessons at moneyglobe.com/learn. Screener, charts, alerts, watchlists and the Classroom are included from Silver (CAD 45 a month). Educational information and software tools only. Not financial advice.

Know your market. Look after your home.

- **Housing city by city**: 26 Canadian cities, all 168 BC cities and towns with actual sales and prices, and the 100 largest US metro areas: prices, sales, condos vs houses, rents, and a buyer's or seller's market.
- **Mortgage Renewal Check** (free): enter your balance, renewal date and rate and see your new payment right away, with no sign-up. Save it to get a reminder before your renewal date.
- **Home Pros**: post a repair for free, with photos, and get estimates from checked local trades. You pay the trade directly, and rate the work from 1 to 10.
- **Property Hub**: tenants and owners send repair tickets to their landlord or building manager and follow them to the end.
- **Guides** in plain words: renewals, the stress test, BC property transfer tax, first-time buyer programs, strata repairs and more.

Trades are independent businesses: we check identity and the licences that licensed work needs, but do not do or guarantee the work. Educational information and software tools only. Not financial advice.

Get found by people in your city.

- **Real estate agents**: be found when people look at home prices and sales, post homes for sale, and send clients a one-page city report with your own name on it.
- **Mortgage brokers**: be found when people check rates or a mortgage renewal, with requests from members in your city.
- **Accountants**: be found when people sort out their taxes. Members keep their slips and capital gains in one place and can share them with you.
- **Trades and home services**: join Home Pros, choose your cities and see new jobs in your area. No commission, no lead fees. Free for your first 90 days.
